PROJECTS

SMOOTH.TRANSACTION (smooth-transaction.herokuapp.com)
- Led a development team of four, using full stack JavaScript, in the creation of a widget that empowers non-profit organizations by accept online donations
- Created an admin portal with customized data visualization tools to help the organizations analyze and interpret their donations' geographic and chronological distributions, contributing to their campaign optimization efforts by providing vital data points
- Went from idea to deployment in 7 days

14 Sites in 14 Days Challenge (shinshinwu.github.io/portfolio/portfolio.html)
- Completed 14 original sites in 14 days utilizing various tools such as CSS3 animations, D3, Angular JS and the Unity game engine

AWARDS

Developer Week SF 2015 · 3rd Place   Feb 2015
- Developed a web-application, "No Place Like Home", that empowers rent-controlled tenants by providing them with an ethical buy-out offer range
- Placed 3rd in this nation's largest challenge-driven hackathon among 95 final project submissions

EMPLOYMENT

HSBC   New York, NY
Business Communication Project Manager   Jun 2014 to Nov 2014
- Responsible for streamlining all branch network and remote contact center internal communications
- Performed gap analysis for all HSBC Retail Banking and Wealth Management internal communications and drafted proposed project plan to close three identified gaps and increase communication effectiveness for 3000+ employees

HSBC   New York, NY
